### *Directors Summary*

The ASL league is a wonderful concept that truly serves the needs of elite players and teams. We have an outstanding group of clubs that are committed to the ASL and we are fully committed to becoming a major force in the league in upcoming years.

This is a great beginning to what promises to be an extremely competitive league. The ability to play great competition at top events is what our players and teams are looking for and deserve. The college bound players seek exposure from college coaches and the ASL events will provide just that.

The soccer landscape has changed dramatically over the last few years and ASL will be an attractive, affordable opportunity for clubs with the proper structure and level of play.

## What is the ASL

The Atlantic Soccer League known as the ASL is a newly formed soccer league that rivals the US Soccer Developmental Academy

## Mission Statement

To provide non US Soccer Development Academy clubs in the East coast region a high quality boys league in a showcase format that has significant games, limits expenses, and provides a platform for collegiate recruiting.

## Goals of the ASL

-To develop a league that truly serves the need of elite players and teams

-Provide clubs not in US Development Academy an alternative route that has both significant games and limits travel expenses

-Provide our players with events that maximize college exposure and continue development.

-The league will provide appealing events for colleges to identify and assess all of our clubs HS aged players

- Create a scouting program to identify the top players in the ASL every event
